

Dispatch Planner

dispatch-seven-xi.vercel.app

Chrome → : → “Add to Home screen”. Then it opens like an app.

Every morning

1

Top bar: type **People today, Autos today, Porters today**.

2

On each client getting a delivery, press

Send today.

Type box size and number. Tick ⚡ **Urgent** if it must reach fast.

3

Read the answer: **“Send 3 people on 3 routes + 1 Porter”**.

If it says “book 2 more autos”, book them and change the number.

4

On each route card, choose **Who takes this?**

5

Press **WhatsApp** on the card to send the boy his route.

He presses **Navigate** in the message. Google Maps takes him stop by stop.

6

Evening: press **Clear day**.

Symbols

1 ⚡ Urgent. Goes first. **LATE** in red = cannot reach in time.

2 **Route 1, 2, 3** = a boy. **Auto** = hired auto. **Porter** = Porter trip.

3 **Map** see the route. **Navigate** open in Google Maps. **Move...** send a stop to another route.

If a client is “not on map yet”

Press Locate. Still not found? Press **Pin**, move the map until the pin is on the shop, press **Save**. Done once, remembered forever.

Same shop, two gates

Press **Send today** on that client twice. Write the gate name each time.
